

QUALITY POLICY

With the goal of advancing green building principles that help protect the environment and foster sustainability in U.A.E, we at Emirates Green Building Council are committed to a policy of continual improvement and customer satisfaction in the performance of Quality Management System for our services in actively supporting U.A.E to be one of the global leaders in the reduction of the build environment's ecological footprint.

This is achieved by:

- Influencing policy and regulation related to sustainable building environment.
- Building capacity and strengthening the community supporting local green building practices.
- Providing resources, information and networking opportunities to those active in the sustainable building community.
- Providing a link between International Green Building movements and the local industry.
- Complying with the legal and other requirements to improve the effectiveness of the Quality Management System

All employees are responsible for implementing and maintaining the above in our organization with a commitment to Quality Management System.

The policy shall be effectively communicated to all our employees, interested parties and made available to the visitors.

Saeed Al Abbar
Chairman
