INTEGRATED
SOLUTIONS

THE **GLOBAL SPECIALIST**
IN ELECTRICAL AND DIGITAL BUILDING INFRASTRUCTURES

BUILDING HOSPITALITY PROJECTS SUCCESSFULLY

Our comprehensive
and reliable
solutions and
services enable you
to fully express your
vision worldwide.

The Legrand Group is a supplier of integrated solutions for all types of industrial and commercial buildings, and has many years' experience in the specific requirements of hotels. Whether you want to improve customer comfort or make work and management easier for hotel operators, the Legrand Group has solutions specifically for each room and public area in the hotel. From bedrooms to the equipment room, every requirement and technical solution is covered.

The purpose of this brochure is also to act as a guide, to help you choose the most relevant solution that is appropriate for your requirements.

To go further with your projects and answer your questions, a fully-qualified sales team is available worldwide to provide you with information and assistance.

€ 4 460 millions

net sales in 2013

The global specialist

A comprehensive solution for your Electrical and Digital Building Infrastructure.

World leader in wiring devices and cable management

No.1 in two areas: wiring devices (19% market share) and cable management products (15% market share).

One of the most comprehensive offers on the market

More than **170 000** catalogue items forming **98** product families.

Continuous innovation

1 800 people were dedicated to research and development in **2009** (5% of sales in R&D).

SUSTAINABLE DEVELOPMENT, ACT NOW FOR TOMORROW

In 2006, Legrand signed up to the Global Compact, a United Nations initiative aimed at promoting good practices and raising awareness within companies in matters of human rights, decent working conditions, environmental compatibility and anti-corruption policies.

The environment, a key dimension

The Legrand Group's policy is based on a few cornerstone principles, namely taking the environment into account in the way it runs its industrial facilities and in how it designs and distributes its products.

In 2009, 84% of its sites worldwide and 96% of those in Europe had received ISO 14001 environmental certification. Legrand naturally complies with all applicable obligations regarding the management of substances, especially the REACH regulation, and implements the necessary moves to ensure conformity.

Actively promoting this dynamic,

Legrand goes even further by voluntarily undertaking, for example, to ban from its future developments the use of any so-called candidate substances for authorisation under REACH whenever a technically viable substitute solution is available.

A voluntary approach has also been adopted to introduce eco-design methods into Legrand's product development processes. This aims to reduce environmental impact at every stage of the product lifecycle, while ensuring customers enjoy undiminished quality. Legrand communicates openly about

the environmental performance levels of its products by publishing Product Environmental Profile (PEP) datasheets.

Last but not least, increased awareness of climate change issues, allied to the potential financial impact of energy savings and changing regulations, all favour the implementation of energy efficient electrical solutions. Legrand responds to the new challenges which this underlying trend raises for the electrical trade by proposing complete solutions to enable reductions in energy consumption and thereby mitigate the energy impact of buildings.

ISO 14001
CERTIFIED SITES

Lighting management

Céliane

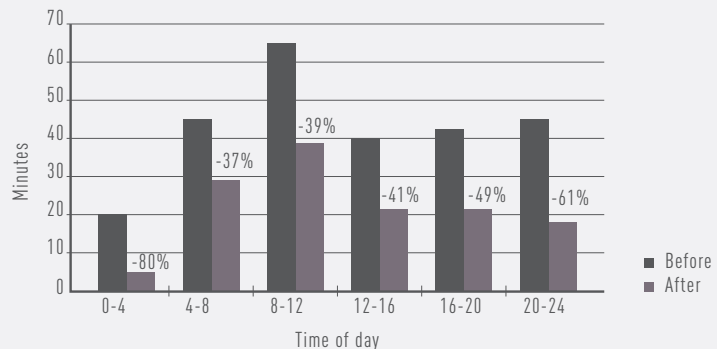

Small conference room 25m²: Lighting Management
(based on: vacancy-based control + dimming 0-10V - halogen control + screen + fan)

- Saving on energy*: 368 euros / year
- Return on investment, payback period: 2 years
- Greenhouse gas (GHG) emissions avoided**:
470 KG / GHG / year

Labels: Legrand is there to support you in your moves to improve the environmental and societal management of your business (Green Globe, Green Key, Green Seal, Energy Star, LEED... labels).

To support hotels in their environmental approach, Legrand provides various eco-solutions including lighting management, automatic pilot lights, key switches, energy meters, etc.

Graph of lighting use patterns in hotel bathrooms before and after installation of the WattStopper automatic pilot light WN-100***

* Based on EN 15 193 ** GHG included
*** Basis of calculation: case study 448 WN sensors installed in Double Tree Hotel in partnership with the Lawrence Berkeley National Laboratory.

Legrand has developed a twofold response to meet operators' increasing requirements for hotel automation: Plug&Play with ZigBee® radio frequency and BUS/SCS as an integrated solution.

Integrated approach means everything is interconnected: our open solutions are highly flexible and can interface with DALI, KNX and third-party systems or protocols using OpenWebNet. With Legrand's integrated solutions, you can choose the supervision system you want to reduce the total cost of ownership and increase the efficiency of your building.

MANAGEMENT SYSTEM

GUEST ROOM MANAGEMENT SYSTEM

Legrand guest room management system offers a fully integrated control and monitoring system for your hotel using standard protocols such as IP BACnet™ and KNX®.

The quality of service is a key factor in customer experience and satisfaction. Guest Room Management System can manage the temperature, lighting, sockets, ventilation and curtains independently in each room. It can be integrated with the Building Management System (BMS) and the Property Management System (PMS) in order to enable a global management of the building and the hotel's operations.

GUEST ROOM MANAGEMENT SYSTEM

LEGRAND SUPERVISION SOFTWARE
Software for the supervision and programming of badges for access control.

RECENT MEDICAL STUDIES HAVE SHOWN THAT LIGHTING HAS A MAJOR IMPACT ON OUR QUALITY OF SLEEP. BLUE SHADES WAKE US UP MORE QUICKLY AND EASILY, WHILE WARM COLOURS ENCOURAGE RELAXATION. LEGRAND SCENARIO CONTROLLERS ENABLE BOTH ARTIFICIAL AND NATURAL LIGHTING (BLINDS) TO BE CONTROLLED INTUITIVELY.

SCENARIO CONTROLLER - ARTEOR

Providing a comfortable mattress for your guests is important, but is it enough to ensure they get a good night's sleep in your hotel?

With the right lighting and temperature conditions, you can provide your guests with even more comfort. They will appreciate the ability to control the lighting and the blinds easily using lighting scenario controllers, so that they can cope better with jet lag. And with Legrand thermostats they can program automatic air conditioning at night to improve their quality of sleep.

IN-ROOM COMFORT

GUEST ROOMS

OUR OFFER PROVIDES YOUR GUESTS WITH ALL THE MULTIMEDIA CONNECTIONS THEY WILL NEED: VIDEO, AUDIO, AUDIO AND VIDEO OR INTERNET VIA OUR RJ 45, HDMI, RCA AND USB SOCKETS. THEY CAN ALSO LISTEN TO THEIR OWN CHOICE OF MUSIC (MP3) USING THE MULTIMEDIA INTERFACE.

Multimedia solutions enable guests to enjoy their digital leisure activities and connect their own equipment.

1 MULTIMEDIA CONNECTION CÉLIANE
HDMI, USB, RJ 45 AND SOCKET OUTLET

2 RCA SOCKET CÉLIANE

Staying in your hotel should be a new and unique experience for your guests, much more than just a night spent away from home.

The Legrand wall-mounted sound distribution system will gently wake up your guests with pleasant music. With LCS structured cabling solutions, you can be sure that your network infrastructure will provide high quality digital video contents and TV over IP services. Using Legrand multimedia connectivity solutions, your guests will be able to connect and use their high-tech equipment in their rooms. And they will be able to enjoy a real multimedia experience.

GUEST ROOMS

ALTHOUGH LEGRAND DOES NOT DEVELOP PRODUCTS SPECIFICALLY FOR DISABLED PEOPLE, THE COMPANY DOES DESIGN ITS PRODUCTS BEARING IN MIND THAT IT MUST BE POSSIBLE FOR EVERYONE TO BE ABLE TO USE THEM.

THIS MEANS IN PARTICULAR EASY-TO-ACCESS FUNCTIONS AND A GOOD UNDERSTANDING OF MARKINGS AND PICTOGRAMS.

SIMPLE EASY-ACTION SOCKET - CÉLIANE
The simplest way to remove a plug effortlessly

AUTOMATIC SKIRTING LIGHT - CÉLIANE
A light that comes on automatically as you pass

To ensure that your hotels are accessible to as many people as possible, it is essential to include arrangements to improve how people move around, how they find their way about, parking, etc., right from the design stage.

These arrangements must be well thought out to cover the needs of all types of disability: physical, sensory, cognitive, mental or psychological.

In this context, the electrical aspects are of prime importance. Visual and audible signalling and the quality of the lighting must enable people to move around and find their way in total safety.

DESIGN FOR ALL ASSISTED LIVING

TOUCH-SENSITIVE SWITCH - CÉLIANE
A switch that is simple and intuitive to operate

INDICATOR LIGHT - CÉLIANE
An ideal solution for finding your way around in the dark

KEYCARD SWITCH - CÉLIANE
By inserting a card, the simplest way to energise a general circuit for several products

THERE IS NO DOUBT THAT YOU WILL
FIND JUST WHAT YOU WANT FOR YOUR
INTERIOR DESIGN PROJECT
IN THE LEGRAND GROUP'S
COMPREHENSIVE RANGE OF FINISHES.

Developing and building
a hotel means defining
a style that will establish
the hotel's identity.
It also involves telling
your guests a story.

Hotels that stand out do not make choices out of habit or by chance: for them even the smallest detail is important, to distinguish themselves from others.

To help you assert your identity, Legrand offers you the widest possible variety of shapes, materials and finishes, to meet your interior designers' requirements and fit in with their choices. Choose designs from all our wiring device ranges that will best represent your style and the unique experiences available for your guests.

UNPARALLELED CHOICE OF DESIGNS

GUEST ROOMS

THE ART OF BEING UNIQUE

Totally made to measure, the Art range provides top quality solutions for prestige installations.

3 worlds and 13 finishes are available to meet the requirements of all architectural styles:

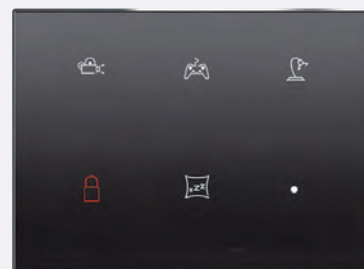

Mémoire takes its inspiration from the decorative tradition of the great houses of the past, while **Epure** symbolises the expression of the most contemporary lines, and **Fusion** illustrates the subtle balance between tradition and modernity.

EPURE
Brushed Stainless Steel

AS WELL AS SPECIAL MARKINGS, EXCLUSIVE FINISHES AND MADE-TO-MEASURE PRODUCTS, WITH LEGRAND YOU CAN ALSO CUSTOMISE THE DIGITAL SCREENS OF OUR PRODUCTS.

FOR EXAMPLE, YOUR COMPANY LOGO CAN BE DISPLAYED ON SCREENS IN STANDBY MODE IN A BEDROOM, A BATHROOM OR THE RESTAURANT USING OPENWEBNET AND THE SERVICES OF A SYSTEM INTEGRATOR.

SPECIAL MARKINGS

To make your guests feel "special", personalize the in-room controllers and bedside units by selecting special markings.

In the most prestigious hotels, guests expect personalised service that will make them feel “special” in a hotel that is “unique”.

To reinforce this feeling, Legrand has special brands and exclusive finishes. Depending on what you need and the level you require, products can even be developed made-to-measure. Legrand strengthens your identity by enabling you to customise your rooms.

CUSTOMISED SOLUTIONS

9	Technical room	50

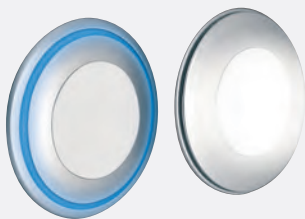

1 CENTRALISED CONTROL - MOSAIC

Lobbies are more than reception areas. Because lobbies should not be a lost space and a wasted revenue opportunity, they are now designed to provide both intimacy and social interaction opportunities.

With Legrand's integrated solutions, your lobbies will become lively places where your guests can meet, work, relax and enjoy. Indication of access points and marking out of routes help people find their way around. In small relaxation islands or work areas, individual lighting controls in each zone and the provision of power as close as possible to where it is required ensure convenience and comfort.

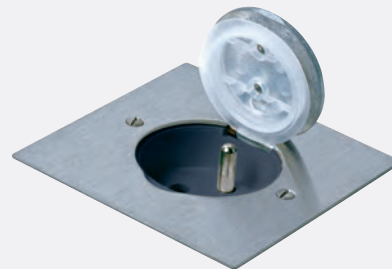

LOBBIES AND LOUNGES

2 PILOT LIGHTS - LIPSO

3 GROMMET

4 FLOOR SOCKET - ARNOULD

ALL OTHER AREAS

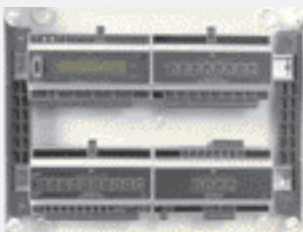

1 TOUCH SCREEN - AXOLUTE

Carefully chosen lighting environments and sound distribution systems help to create a sense of well-being in bars and restaurants.

Areas can be enhanced by creating lighting environments and varying the effects. Different lighting scenarios can be created for different times of day, and the colours can be varied. Sound distribution solutions are also available.

RESTAURANTS AND BARS

2 MODULAR REMOTE CONTROL DIMMER - VANTAGE

3 KALANK LIGHTING UNIT WITH LED - SARLAM

4 100 V ATTENUATOR - CÉLIANE

ALL OTHER AREAS

1 CONVENTION CENTER FLOOR BOX

2 UNDER-FLOOR POWER DISTRIBUTION - SOLUFLEX

Easy control of the lighting in function rooms is important, in order to optimise their use. And it is also essential that the installations are flexible.

To adapt the lighting environments in different zones, the lighting can be managed using local or remote controls. And the use of wireless solutions and under-floor power distribution ensures that installations are flexible.

BALL ROOMS

3 CENTRALISED CONTROL - MOSAIC

4 RADIO SCENARIO SWITCH - CÉLIANE

5 FAST-CONNECTION INSTALLATION SYSTEM

ALL OTHER AREAS

1 EMERGENCY LIGHTING UNIT - ARCOR 2

2 SLIDE CONNECT G2

Corridors and passages must have effective, attractive emergency lighting. Smart lighting management can avoid unnecessary energy expenditure.

Lighting controls can result in energy savings of more than 30%, reducing your building operating costs by 10%. Slide Connect G2 units provide both safety and energy efficiency. With ARCOR 2 self-contained emergency lighting units attractive appearance and perfect integration go hand in hand with safety.

PASSAGES AND CORRIDORS

1 POKE THRU SERIES

2 DESKTOP MULTI-OUTLET EXTENSION

3 FLOOR BOX EXTENSION

Workstation performance
and efficiency are
essential in business
centers and workplaces.

Ergonomic workstations, with power available as close as possible to where it is needed, and reliable high-speed Internet connections will make users' work easier.

BUSINESS CENTERS EXECUTIVE LOUNGES

4 WI-FI ACCESS POINT ON DLP SNAP-ON TRUNKING - MOSAIC

5 POP UP FLUSH-MOUNTING SOCKET

6 LIGHT, LIVING, LIGHT TECH 4-MODULE OFFICE CONNECTOR UNIT ON 3D ALUMINIUM TRUNKING

ALL OTHER AREAS

1 MOBILE TOUCH SCREEN - VANTAGE
12" wireless, audio and video, keypads can be incorporated

The centralisation of controls and the provision of various connections contribute to working efficiency in conference rooms and meeting rooms.

Control and monitoring of lighting, the projection screen and blinds from a single point, as well as the presence of high-performance audio and video connections, will contribute to the success of meetings.

CONFERENCE AND MEETING ROOMS

2 FLOOR BOX WITH DVI CONNECTION, HD15 AND HDMI SOCKET

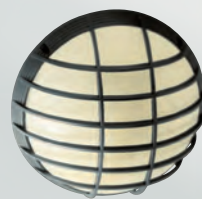

3 MAINS SOCKET AND RJ 45 CONNECTOR - MOSAIC

4 XLR SOCKET - MOSAIC

ALL OTHER AREAS

1 H.P. BULKHEAD - SARLAM

2 BORNÉO BOLLARD LIGHTS - SARLAM

To make the most of outdoor areas there must not only be a high performance lighting system but also a feeling of safety.

Waterproof luminaires must obviously be used in these areas, and efficient lighting of entrances and the presence of video surveillance will reassure customers.

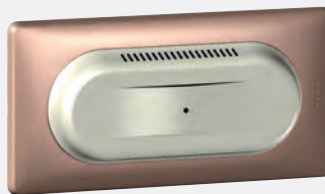

FITNESS, SPAS AND OUTDOORS

3 CCTV OUTDOOR CAMERA

4 WEATHERPROOF GERMAN STANDARD SOCKET - CÉLIANE

5 WI-FI ACCESS POINT - CÉLIANE

6 AUTOMATIC SWITCH WITH OVERRIDE - PLEXO

ALL OTHER AREAS

1 ACCESS CONTROL - SOLIROC

2 ANTIBACTERIAL SOCKET - PLEXO

Only staff should have access to service areas. Potentially dangerous areas must be fitted with effective safety systems.

Storage areas, laundries, kitchens, etc., are all staff-only areas. Secure access management can be used to control entry. Technical alarm sensors (flood, gas, etc.) will warn of any danger.

SERVICE AREAS

3 AUTOMATIC SWITCH - PLEKO

4 INDUSTRIAL SOCKET - HYPRA

5 TECHNICAL ALARMS - PLEKO AND LEXIC
Gas, flood, temperature rise

ALL OTHER AREAS

1 EDM TRANSFORMERS - ZUCCHINI
From 100 to 20,000 kVA, cast resin transformers, Certified Low Emission (CLE)

2 REACTIVE ENERGY COMPENSATION

3 HR AND SCP BUSBARS - ZUCCHINI
For transmission and distribution of high power. Safe, flexible and fast installation system

The technical room is the heart of the installation. Its role is the efficient provision of power and data.

A dry-type transformer is an ideal solution to ensure the safety of the installation. Continuity of service, which is so important, is ensured by a supply inverter and good discrimination between circuit-breakers. Reactive energy compensation will lead to a reduction in costs, and maintenance will be made easier by linking the transformer and the main LV distribution board by means of busbars.

TECHNICAL ROOM

4 POWER ENCLOSURES - XL³
Modular system for safe, compliant installations. Form of separation: 2a to 4b

5 DATA ENCLOSURES

6 CABLE MANAGEMENT SYSTEM - CABLOFIL

ALL OTHER AREAS

IN CLOSE COLLABORATION THROUGHOUT THE WORLD
