

Partnership Opportunity

WORLD GREEN BUILDING WEEK
2023

World Green Building Week

The Green Building Week celebrates sustainability in the built environment and raises awareness on the great impact that buildings have on the environment, economies, and communities.

This year EmiratesGBC is hosting a series of events to mark the World Green Building Week. The events will span across 3 days and will host different activities including roundtable, panel discussion, and professional networking. Aiming to bring various stakeholders from government, private sector and academia all together.
