

MENA Green Building  
**AWARDS**

# Partnership Opportunity 2024

## **MENA Green Building Awards**

## INTRODUCTION

The **MENA Green Building Awards** will honor organizations in the MENA region that demonstrate clear implementation of sustainable design, construction and operation of buildings and structures.

Its goal is to help establish a regional model for the sustainable built environment that is world class and replicable.

2024 will see the 12th consecutive cycle of the awards program which is endorsed by the World Green Building Council and delivered in partnership with 6 regional Green Building Councils.

The Awards Ceremony and Gala event regularly hosts over 180 guests, many of whom are key government stakeholders and regulatory bodies, industry professionals, NGOs and research institutions.

With stronger reach in the region, we expect the number of applications and event delegates to continue to grow in 2024. |

## MEDIA COVERAGE

With each successive year of the event continues to grow and media interest continues to increase. We again expect extensive media coverage which will highlight the event program and participants as well as its sponsors. The media outreach is both local and regional and includes, news channels, trade magazines, daily publications, newspapers, online magazines and blogs
